

RING GASKETS

Texas Products WSD carries a large quantity of API soft iron Ring Gaskets that are widely used in the oil and gas industry. These Ring Gaskets come in 3 different series made of low carbon steel or stainless steel for use with H₂S services. Each Ring Gasket meets API standards, and is adaptable to any flange.

BX and RX Ring Gaskets are for extreme pressure service. Pressure actuates these Gaskets, the higher the pressure, the tighter the seal.

Combination Gaskets are designed for Ring Joints in which the mating flanges have different ring grooves.
